

Why	To remove mineral deposits and tea residue that can affect quality		
Time required	5 minutes to prepare	10 minutes to complete	
Time of day	At close	For 24-hour restaurants: during low-volume periods	
Hazard icons	 Chemicals	 Electricity	 Hot Liquids/Steam
		 Hot Surfaces	 Moving Parts

Tools and supplies

Bucket, clean and sanitized towels

Bucket, soiled towels

Delimiting Tool

Bristle Brush

Kay® Peroxide Multi-Surface Cleaner Solution

Kay® SolidSense All Purpose Super Concentrate (APSC) Solution & Sanitizer Solution

Kay® Filter Pouch Cleaner

★ Tip Before cleaning and sanitizing the brewer, fill dispensers with enough iced tea to continue serving guests.

 **CAUTION:** Surfaces/liquids may be hot.

Procedure

Remove and clean Brew Basket, Dispenser, Dispenser Lid and Booster Stand

1. Pour packet of **Sanitizer Solution** into 3-compartment sink.

 Chemicals
APSC Solution, Sanitizer Solution

2. Remove **Brew Basket**.
3. Discard used **Tea Pouch**.
4. Wash **Brew Basket, Dispenser, Dispenser Lid** and **Booster Stand** in 3-compartment-sink.
5. Use provided **Brush** to clean.
6. Rinse parts.
7. Set out parts to dry.

Clean and sanitize brewer and dispenser (continued)

Remove and clean Sprayhead

1. Remove by turning it counterclockwise.

Hot Surfaces
The sprayhead area is hot.

Hot Liquids/Steam
Hot water may have collected on the sprayhead during brewing.

2. Removing mineral deposits from **Sprayhead** with **Deliming Key**.

3. Wash, rinse and sanitize the **Sprayhead** in a 3-compartment sink.

5. Insert the long flat end of the **Deliming Tool** into the **Sprayhead Tube** as shown, and rotate to clean.

6. Insert the pointed end of the **Deliming Tool** into the **Bypass Port** or vent as shown and rotate to clean.

7. Wipe the **Sprayhead** panel with a clean, soaked towel sprayed with APSC solution. Discard towel in the soiled towel bucket after use.

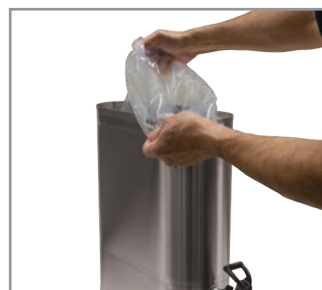

Chemicals
APSC Solution, Sanitizer Solution

8. Set out **Sprayhead** to dry.

Clean Tea Dispenser

1. Remove **Tea Liner**.
2. Place dispenser in 3-compartment sink with **Sanitizer Solution**.
3. Remove **Faucet** and place in sink.
4. Clean **Faucet** and **Dispenser** with provided **Brush**.

continued >

Clean and sanitize brewer and dispenser (continued)

5. Rinse out Dispenser.

Let water go through **Faucet Tube**.

6. Wipe the outside of the Dispenser and Faucet Tube with a clean, sanitizer-soaked towel.

7. Set out Dispenser and Faucet to dry.

8. Wipe the brewer exterior with a clean, sanitizer-soaked towel.

9. Replace Sprayhead.

10. Replace Brew Basket.

11. Replace Faucet on Dispenser.

12. Place Dispenser on Brewer.
